# INSTRUCTIONS FOR CONNECTING YOUR WI-FI ENABLED AEROGARDEN TO ALEXA

STEP 1:
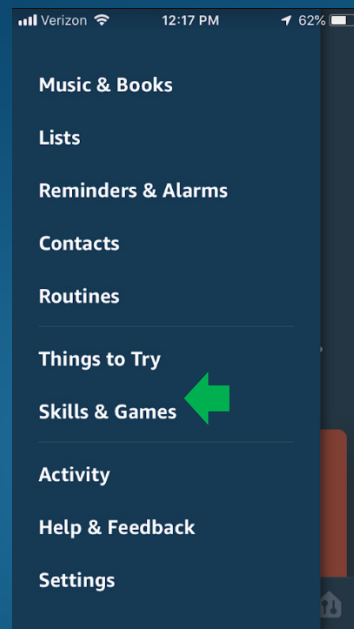

Pair your Wi-Fi enabled AeroGarden to your AeroGarden App
- The AeroGarden App can be found Free at Apple, Amazon, and Google Pay App stores
- Download the App and follow the Pairing instructions inside the App

STEP 2:
## Go to the Alexa App on your smart device:

**I.** Go to the Alexa menu and select "Skills"

**II.** In the search bar (all skills) enter "AeroGarden"

**III.** Select the AeroGarden skill and Enable it

**IV.** You will need to allow Alexa to access your AeroGarden by signing in with your AeroGarden login info

V. Close the confirmation page, per instruction

VI. Discover Devices window will open for you, select "Discover Devices"

VII. Alexa will go through the process of discovering devices. You will see the name you gave your AeroGarden when you set it up on the AeroGarden App. This is the name you will use to tell Alexa to turn on and off the lights.

Alexa is discovering devices...

This may take longer than 20 seconds

8 devices discovered

DONE

Add New Devices and Groups

Tap + to set up Alexa devices, groups, smart lights, and more

DONE

TEST IT!

Ask Alexa to turn your lights On or Off at any time without interrupting your pre-programmed light cycles.

Simply say something like "*Alexa, turn my [AeroGarden Name] On*" or "*Alexa, turn Off my [AeroGarden Name]*"

Alexa will know to respond to the name you have given your AeroGarden when you paired it to the AeroGarden App.
